London, UK | 07591419476 | [mrgeorgeflood@gmail.com](mailto:mrgeorgeflood@gmail.com) | [www.georgeflood.dev](http://www.georgeflood.dev)

## PROFILE SUMMARY

Motivated and growth-focused Junior Web Developer with over two years of experience in designing, developing, testing, and maintaining functional, responsive, and high-performance websites, web applications, and products. Proficient in HTML, CSS, JavaScript, React.js, jQuery, SASS, and Git, and experienced in clean architecture, SDLC concepts, object-oriented programming, and testing and quality assurance. Adept at writing clear, reliable, and maintainable code, troubleshooting and debugging complex technical issues, and working collaboratively in cross-functional teams to meet project deliverables. Highly organized with a keen eye for detail, committed to excellence, and capable of prioritizing and allocating resources in dynamic environments. Exceptionally dedicated professional with impressive communication, interpersonal, and relationship-building skills, who thrives in fast-paced settings.

| ■ SASS       | ■ Web Development               | ■ Data Structures               |
| ■ Git        | ■ Code Reviews                  |                                 |
| ■ Bootstrap  |                                 |                                 |

## DEVELOPMENT EXPERIENCE

### FREELANCE WEB DEVELOPER

2022 -

#### PRESENT

#### FIVERR & UPWORK

- Spearhead end-to-end website development projects for clients on Fiverr and Upwork, ensuring timely delivery, quality work, and client satisfaction.
- Collaborate with clients to gather requirements, research user needs, and develop website roadmaps to establish required functionalities and design tailored UI and UX features that improve usability and create seamless user journeys.
- Develop, test, deploy, and maintain websites, web applications, and APIs using modern front-end technologies, ensuring high-performance, reliability, and scalability, while troubleshooting and debugging complex technical issues.
- Perform design and code reviews to identify pain points, enhance code quality, improve performance, and maximize website and product functionality, while staying up-to-date with the latest web development trends and technologies.

## PROFESSIONAL EXPERIENCE

### SECURITY GUARD

2019 -

#### PRESENT

#### YOUNG'S

- Ensure the provision of high-quality service delivery, reinforced the utmost standards of security and safety for staff and customers alike, and maintained a safe and secure environment for all visitors, staff, and assets.
- Collaborate with management to develop and implement policies and procedures to augment security posture, and continuously monitored and evaluated the effectiveness of the security program to identify opportunities for improvement.
- Conduct regular security patrols, monitored surveillance systems, and promptly respond to incidents and alarms to prevent and mitigate security breaches, theft, and damage to property.
- Provide exceptional customer service, assisted visitors and staff with inquiries, and resolved conflicts and incidents in a professional and timely manner, upholding the company's reputation and brand image.

### MANAGER

2017 -

2019

## GERRGE FLOOD

### COSTA COFFEE

- Developed and implemented training programs for new employees, ensuring consistency in product quality, service, and customer satisfaction.
- Oversaw the recruitment process, interviewed candidates, and onboarded new hires.
- Conducted performance evaluations and provided constructive feedback to team members, identifying areas for improvement and opportunities for growth.
- Managed inventory levels, including ordering and receiving supplies, monitoring stock levels, and ensuring adequate stock availability.

### CINEMA HOST

2014 -

2016

### ODEON

- Greeted customers with a warm and welcoming demeanor, providing exceptional service while ensuring that all guests had an enjoyable cinema experience.
- Effectively operated point-of-sale systems, accurately handling cash and credit transactions, reconciling cash drawers, and ensuring that all financial transactions were completed in a timely and accurate manner.
- Prepared and sold food and beverage items, including popcorn, soft drinks, and candy, in compliance with health and safety standards, maintaining a clean and hygienic work area.
- Assisted with theater clean-up between shows, performing tasks such as sweeping floors, wiping down counters and equipment, and stocking supplies to ensure a clean and organized work environment.

## PROJECTS

- **Sign-up form:** leveraged HTML & CSS to create a user-friendly and responsive registration form.
- **SCSS webpage:** utilised SAAS partials and variables to build webpage, producing clean and less repetitive code.
- **Photo Gallery app:** employed CSS grid to design the application and implemented jQuery plugin to filter through pictures.
- **Javascript game:** created an immersive and functional game via HTML, CSS, and JS.
- **Ajax directory:** designed API to display employees, creating search filters for users to search the repository.
- **Dashboard:** built functional, appealing, and user-friendly dashboard with HTML and CSS, implementing charts and graphs from open-source JS library to improve navigation.
